

Group Singing Activity

Music can help spark a child's imagination and ignite a lifetime passion. Music education should not be privilege for a lucky few , it should be a part of every child's world of possibility. On 28th September 2018 the tiny tots of UKG were given a platform to showcase their talent through group singing activity. All the kids sang both english and hindi song with joyous glee. This singing activity is organised every year for the children to enhance their speaking and listening skills thereby acquiring confidence. This activity instilled a spirit of togetherness, cooperation and creativity in students which was appreciated by everyone.
