FUN WITH SHAPES

(LKG)

With shapes like circle, square, triangle, rectangle a craft activity was conducted with the kids . The teacher first revised these shapes then told kids to stick circle on top and small triangle around it to make sun. Similarly, they pasted shapes to create huts with doors and windows and tree to make a scenery . Kids loved the shape craft, they practice creating things with shapes and learning their names.

EXPERIENTIAL ACTIVITY (UKG)

BALANCING

Balancing is the ability to maintain a controlled body position during task performance. An interesting activity was done by the children of UKG. They kept a notebook on their head, walked straight, maintained balance without moving their head and without touching the book. Children were extra careful as they wanted to complete the activity successfully. They enjoyed balancing and were super amused by walking with the book on their head. Learning balancing helps to develop better concentration, remaining attentive, walking in straight line, postural control, focus on the task and improves overall body balance.

TOY IN A CIRCLE (LKG)

Children of LKG enjoyed a fun filled game in which they were supposed to put toys in a circle made on the floor from a distance of 1.5 meters. The teacher set the time limit of 1 minute for the children. After 1 minute the children counted and told how many toys they were able to put in the circle. Children participated with full energy and enthusiasm in the game.

FRUIT CHAAT ACTIVITY (UKG)

- Children of UKG were given another activity of making Fruit chaat. Cut fruits were given to them. They added all of them in a bowl with a pinch of salt and chaat masala and mixed them well. Children were happy and excited. All of them enjoyed making chaat and had it in the class. Through this activity they learnt the importance of fruits in meals.

Fun with Numbers (LKG)

To Get students hooked to fun, an effective math game was played to strengthen their number skill. They were asked to keep glasses with numbers marked on them . They were asked to put correct number of spoons in the number glass for instance in glass with 4 written on it, they were asked to count and put 4 spoons . This activity helped them in recognition and values of numbers

MATH TOSS GAME (UKG)

EXPERIENTIAL ACTIVITY

AN EASY AND FUN ACTIVITY WAS CONDUCTED FOR IDENTIFICATION OF NUMBERS. A CHART WITH JUMBLED UP NUMBERS WAS PASTED ON THE WALL .WHEN TEACHER CALLED OUT A NUMBER THE STUDENTS HIT THAT NUMBER WITH THE BALL. IT WAS A FUN FILLED EXPERIENCE FOR THE CHILDREN.

Making clay chapattis (LKG)

The children were asked make chapattis of clay using mom's rolling pin. They made slant lines with scale in it. Later made designs by putting match sticks or toothpicks in the grooves made by scale. This activity was a part of Introduction to teaching of slant strokes in online class.

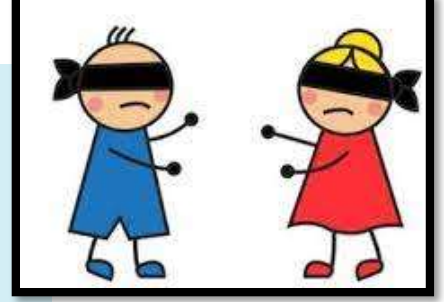

PAINT AND BRUSH ACTIVITY

(UKG)

- Children of all ages love to paint. Painting is always a fun and stimulating activity for kids. An interesting activity using paint and brush was done by the children of pre-primary. They coloured the picture of fruits with water paints. They selected the paints according to the colour of the fruits. Children were very excited while doing this activity. Painting helps in developing fine motor skills, eye hand coordination, concentration and focus.

BLINDFOLD ACTIVITY (LKG)

Blindfold activity helps the children to explore the sense of sight while learning about five senses. This activity also helps children to understand the importance of sight and what is it like without seeing. The children were blindfolded in online class and were made to taste salt, sugar, lime juice and mango. Through this activity the identification of different tastes of food was experienced. Their expressions changed with each item they tasted. Children enjoyed doing this activity.

Letter S objects with clay (LKG)

- While introducing letter Ss and it's sound, children were asked to create minimum two things with S स sound. Clay moulding is very important for fine muscle development. It makes their finger muscles strong for writing drawing and colouring activities. It also helped in vocabulary building. The kids were excited to create things with clay.

TEARING AND PASTING

ACTIVITY -UKG

Tearing and pasting is an amazing fine motor activity for kids . Tearing paper requires strength and endurance of the small muscles in the hand . 'Tearing and Pasting Activity was done by the children of UKG . Children tore different colour origami sheets/glaze paper into small pieces and pasted them in kites . This activity helped to develop creativity and fine motor skills.

PAPER FOLDING ACTIVITY - LKG

- LKG children created a dog with a simple paper folding activity under letter Dd craft. They were given two triangles of equal size. Children folded the two corners of one triangle to make ears and one corner of the second one to make the tail. They pasted the two triangles together and drew facial features and black patches to complete the dog.

TOY IN THE CIRCLE UKG

- An interesting 'TOY IN THE CIRCLE' game played by the children of UKG in which they suppose to throw toys inside the circle in the count of 30 by the teacher . In the end children were asked to count and tell how many toys they were able to throw inside the circle . This game helped them to understand concept of inside and outside . Children thoroughly enjoyed and participated enthusiastically .

Obstacle jumping exercises (LKG)

- The children of LKG enjoyed yet another physical exercise game. The parents were asked to put four stoles or dupattas at a distance. The children performed a set of four Jumping exercises. They jumped over the dupattas, jumped with palms touching floor, left and right sideways jump. Children enjoyed and participated with full enthusiasm. The children were made to understand the importance of physical exercises in lockdown.

JOIN THE DOTS (ART INTEGRATED ACTIVITY)

- UKG

The children of UKG enjoyed an art integrated activity.

They were given an incomplete image and were asked to join the dots from 1 to 50 to complete the image. The resultant image was of a duck and later on they did foil paper printing in the same. Children enjoyed doing this activity.

Following a sequence helps to Improve the critical thinking skills of young minds like reasoning, logic and solving problems.

FINGER PAINTING ACTIVITY

LKG

- LKG children made a snake with finger painting activity. On a cutout of letter S they painted stripes with their index finger and pasted eyes and tongue. They enjoyed the activity a lot

EXPERIENTIAL ACTIVITY

SANDWICH MAKING – UKG

- Little chefs of U.kg classes enjoyed another beautiful and colourful activity with bread slice and vegetables. They were instructed to make Boy's and Girl's face with bread, veggies, cheese slice, bhujia etc. They followed all the instructions beautifully. This activity helped them to enhance their eye and hand co-ordination, creativity and fine motor skills.

Pattern Cutting Activity

Cutting with scissors works on the separation of two fingers of the hand and strengthens fine muscles. The positioning of the scissors in a child's hands also starts to work on the tripod group. Kids were given sheet with patterns drawn on it and were asked to open and close the mouth of the scissors and follow the pattern. Kids really enjoyed the activity and did it with concentration.
